Product Description

Takeuchi TB235-2 Excavator

Ease of transport and an excellent working range make the TB235-2 a great choice for utility work, landscaping, and construction. The TB235-2 has all steel construction to ensure long-term durability, a multi-information display that provides the operator with outstanding functionality, and large access panels for easy routing maintenance and inspection. The TB235-2 is a well-appointed excavator that delivers the power and performance you expect from Takeuchi.
