Product Description

Boxer 600HD Mini Skid Steer

Powered by a 24.8-HP (18.5-kW) diesel engine and producing 11.3 gpm (43 l/min) of auxiliary hydraulic flow from the single remote auxiliary lines, this model provides all the power needed for tough jobs. The 600HD features a 74" (188 cm) hinge pin height and a 531 lb (241 kg) rated operating capacity, with a tip capacity of 1,535 lb (695 kg) and fixed track width of 34.7" (88 cm). The 600HD boasts a variety of new features, including a redesigned platform with added creature comforts, hydrostatic drive, piloted joystick controls, rubber-isolated hydraulic components, tightened boom tolerances and a whole lot more!
