Product Description

Rayco RG37T Stump Cutter

The RG37T is an excellent stump cutter for those who need a compact machine that has traction to get where tires just won't take you. The rubber track undercarriage provides excellent traction while maintaining a low ground pressure. Unlike other track stump cutters, the Trac Jr's short track base allows it to turn easily and with less turf damage than competitors' long track bases. Counter-rotating tracks allow the machine to turn in place, which makes it easy to re-position when cutting large stumps. A swing-out control station provides excellent visibility while cutting and swings in line for travel through gates. Two-speed travel and a hydraulic backfill blade rounds out the package making the Trac Jr an excellent choice among compact stump cutters
