Product Description

Kress 60 V 16" cordless brushless grass trimmer - KG160

Equipped with Brushless motor, KG160 delivers the power of petrol without the hassles or emissions. With quick line load design, you can rewind the line easily in seconds.

- Gas-like power performance, perfect for tough applications.
 - Kress-built brushless motor delivers more power, longer runtime and extended lifespan over brushed motors.
 - Quick line load design for rewinding the line easily. You only need to insert the line into the tray and rotate the rotary knob, it will be ready in seconds.
 - Intelligent efficiency adjustment technology automatically adjusts motor performance to maximum the cutting power or run time according to grass condition.
 - ECO mode with variable-speed control helps maximise run time at a lower work load
 - Weight balance design and multi-position handle for height adjustment and better control
 - Part of Kress 60 V battery system, one 60 V battery can power all Kress 60 V tools
-
