### **Product Description**

## **ODES PathCross 1000 Pro S ATV**

### **STRENGTHENED CHASSIS GUARD**

This could provide an even higher class of protection to the chassis of the vehicle to conquer rocky hard terrains.

### **TOP PLACED COOLANT EXPANSION**

This design prevent excessive mud from covering the heat dissipation pads of the coolant tank which will maintain optimal engine cooling performance through seriously challenging terrain.

### **HIGHER WATER WADING DEPTH**

With higher air intake, CVT intake & exhaust, fuel tank vent and waterproof ignition coil PathCross Mud series could wade deeper water than ever.
