Product Description

Bobcat DT20 Dethatcher & Overseeder

Heavy-duty and built to perform, the Bobcat® DT20 places seeds directly into soil slits for fast germination and unmatched seed-to-soil contact, aeration, and overseeding.

- Overseeder with dethatching capabilities through a simplified transition process to exchange flail reels between the functionality.
 - Cover 18,700 square feet per hour with a 19 in. working width
 - Without any tools, easily change between five different reel types
 - Self-propelled operation
 - Overseed with confidence. Seed flow rate is easily controlled right from the operator's station and stops automatically when the reel is raised.
 - Adjust durable cutting blades down to a depth of .25 in. while seeding at variable rates for different grass varieties and applications.
 - Experience maximum germination with curve-shaped discs that place seeds directly into soil slits for unmatched seed-to-soil contact.
 - Finish jobs without feeling exhausted with self-propelled operation, delivering a consistent ground speed that makes for better results.
 - Independent ground and reel drive options with a transport lever make it easy to move around the jobsite.
-
