Product Description

Bobcat AE26 Walk Behind Aerator

Packed with features, the Bobcat AE26 is a formidable machine that can aerate up to 40,000 sq ft/hr. Easy-Steer allows the unit to maneuver around highly landscaped areas fast and efficiently. Designed to rotate independently while driving, the tine assemblies allow you to steer without removing the tines from the ground.

The AE26 boasts durable hardened steel alloy tines and a protective front bumper guard, ensuring enhanced durability. Moreover, its adjustable weight distribution system and bolted folding handle significantly improve ease of lifting and transportation.

The Bobcat® AE26 aerator is durable, efficient, and easy to use. Adapt to the job with versatile features and get it done through durable performance.

- 26.5 in. working width
 - 42 hardened alloy steel tines
 - All operating controls are located at the handlebars for convenient and easy operation
 - Equipped with Easy-Steer technology
 - Bolted folding handle allows aerator to compact for hassle-free storage and transport
-
