Product Description

Bobcat FP15.50 Forward Plate Compactor

The FP15.50 forward plate compactor is equipped with a durable and efficient Honda engine that provides easy starts and maximum power while minimizing fuel consumption.

- Consistent compaction results on a variety of materials
 - Easy access to service points
 - Extended service intervals reduce operation costs
 - A robust tubular frame surrounds the engine
 - Standard water tank and sprayer kit
 - Put the FP15.50 forward plate compactor to work in a wide range of applications and leave behind high-compaction results.
 - Designed to isolate plate vibrations from the operator's handle, Bobcat forward plate compactors minimize hand-arm vibration and fatigue.
 - Moving a Bobcat forward plate compactor from one jobsite to another is easy with the optional, toolless transport wheels and central lift bar.
 - Control dust or keep the vibratory base plate free of hot asphalt buildup with the standard water tank and sprinkler system.
 - The one-piece cast base plate is designed with no connection points that can weaken over time. The base plate is also thicker in the rear, where most wear occurs.
-
