Product Description

Bobcat T86 Compact Track Loader

Only the T86 offers three hydraulic flow options - standard, high and super flow - in one compact track loader, setting a new industry standard in performance and attachment versatility.

The T86 features an optimized weight-to-horsepower ratio that ranks this vertical-lift machine among the industry's most powerful, maneuverable, efficient and productive in its size class.

Premium Power Performance, the track loader's power management system, further sets this machine apart. Designed to boost productivity, the system improves engine-to-workgroup efficiency, distributing more power where and when it's needed during multi-tasking operations.

Smoother, faster control, with maximum power where and when you need it most - means more work done per day.

Power and comfort like you've never experienced before. You're getting the best of the best with super-flow hydraulics, industry-leading hydraulic power management, premium comfort features and exceptional cooling even in the harshest conditions. There's no compromises with the T86.

- Premium Power Performance - an intelligent power management system, when equipped with high or super flow hydraulics
 - An industry-first three hydraulic flow options in one machine
 - Non-DPF Bobcat engine
 - Leading attachment versatility
-
