Product Description

Bobcat TR75 Trench Roller

Tackle trench work and many other compaction jobs with the remote-controlled Bobcat® TR75 Trench Roller.

- Solar-powered remote control
 - High-compaction performance
 - Oscillating drums deliver greater ground contact
 - Ideal in a wide variety of applications
 - Standard drum extensions
 - Outsmart operator fatigue and get impressive compaction results with the remote-controlled Bobcat® TR75.
 - The TR75 achieves ideal compaction on a wide range of materials, including dense soils.
 - The powerful TR75 is ideal for a variety of compaction applications including pipeline trench construction, commercial, industrial and residential development, structure backfill work, as well as electric and cable installation.
 - With a tight turning radius, low center of gravity and an oscillating articulated joint, the TR75 is highly maneuverable and maintains more complete contact on uneven ground.
-
