Product Description

Toro 22" 163cc Briggs and Stratton String Mower - 58620

Introducing the Toro Walk Behind String Mower, powered by a 163cc 4-Cycle Briggs and Stratton Engine. The string mower is the perfect all-terrain tool for making short work of your trimming and brush clearing tasks. In contrast to push mowers or hand-held trimmers, the Toro String Mower is designed to go where mowers can not while eliminating the back strain associated with carrying heavy equipment around the yard. Built-tough features like a one-piece steel deck and heavy-duty nylon line ensure continuous results and make the experience of slicing through weeds and dense foliage quick, easy, and satisfying. This unit utilizes large diameter wheels to keep you coasting around your property over uneven terrain and through thick grass and weeds. When the job is complete, you simply wheel the unit back to the garage and fold down the handlebars for easier storage. Backed by a 5-year warranty and US-based customer service, this product is built to perform.

- Powered by a strong, yet quiet, 163cc 4-Cycle Briggs and Stratton engine to chop down unsightly weeds and stubborn brush with ease.
 - The large 14-inch wheels allow it to float through thick grass, weeds, brush, nettles, and other foliage too difficult for push mowers to overcome.
 - The one-piece steel deck provides strength and stability while reducing vibration during operation. Super tough nylon line has a cutting swath of 22" to get the job done quickly.
 - Tool-less handlebar adjustment knobs provide compact storage and easy transportation. Never-go-flat wheels ensure that your equipment is ready to go when you are.
-
