Product Description

ET20 Compact Excavator - Enclosed Canopy

The 2-tonne, ET20 excavator offers excellent performance and comfort in a compact package. The ET is a productive and versatile digging machine with a maximum digging depth of 8' 10" and a strong breakout force of 4226 lbs. The Tier 4 Final engine delivers 17.2 net hp at 2,200 RPM for powerful digging, fast cycle times and quiet operation. The ET 20 is also designed for comfortable operation with a large operating station, excellent visibility and a unique double-door cab design.

Features:

- A telescopic undercarriage can be extended from 39" to 51" for greater lifting power and stability
 - Comfortable operator station with unique double-door cab allows the operator to enter or exit the machine from either side and provides for excellent visibility.
 - Large engine cover and easy removal of side covers provide for easy access and serviceability.
 - Pattern control changeover is conveniently located inside the operator station.
 - Elongated tracks feature four rollers for increased stability, smoother ride and lower ground pressure.
-
