Product Description

2023 American LandMaster EV - 2WD

BE BOLD. BE DIFFERENT. BRING HOME THE FUTURE TODAY.

Bring something bold and different home this year. The lithium-powered EV is the perfect, maintenance-free side-by-side to help tackle chores, enjoy times with friends, transport material around your property, or just enjoy a quiet ride around your community.

Thanks to our unique L-ROSS (Landmaster Ride Optimization Suspensions System) you'll barely notice the rumble strips, railroad ties, or large rocks you just plowed over. Your life will get a whole lot easier knowing you can tackle heavy jobs, loaded trails, tight corners, and muddy trails. Plus, you'll have added comfort even in the most uncertain environments due to our unique coil-over shock setup and supersport trailing arm.
